

To the FCC:

Klove is an instrument that God uses to get to so many poeple that need Him. These stations are twenty-four seven, and they are FM for a reason. Poeple are searching and longing for peace that only comes from the Lord Jesus Christ, and when someone new starts changing stations and finds Klove they find something they're drawn to, because that's Gods will for that person, (that's the peace). God works in us individually. We all have a soul of our own that God loves so deeply, beyond our imaginations. Remember, this is about God and making sure that His Word gets shared with everyone, everywhere. I want to drive next to someone Praising God, not some person blaring their secular station with words I can't even understand, that's very distracting. Music alters a persons mood, we need loving poeple on those roads, not roadrage. Please leave Klove on FM until Jesus comes for us. My family and I need Klove, we are financial providers, and have a great respect for the Lord's work. Remember, the Lord Jesus Christ loves you too. God bless you and guide you in this matter. Thank you. Linda J. Monroe
